

Discover Macquarie Life Active

Macquarie Life

MACQUARIE

Macquarie Life Active is an exciting new alternative to traditional insurance products.

It provides a comprehensive all-in-one insurance solution. With severity based benefits, broader coverage, and the ability to make multiple claims, Macquarie Life Active is a product that aligns to the needs and expectations of your clients.

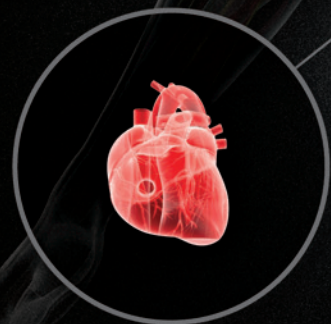

With Macquarie Life Active, advisers are already finding it easier to promote the importance of life insurance.

Macquarie Life Active just got easier.

Help to explore Macquarie Life Active and Health Events in detail with your clients, and to explain its benefits, by using the interactive guide that covers:

- > an interactive Health Events table
- > visual examples of medical conditions
- > key features
- > case studies
- > PDSs and marketing materials

Macquarie Life Active Body.

Macquarie Life Active Body is a revolutionary interactive human anatomy visualisation and learning tool for insurance advisers.

Macquarie Life Active Body includes:

- 1 an interactive Health Events table that allows you to demonstrate the transparency of severity based claims using the Macquarie Life Active Body.
- 2 visual examples of medical conditions with more than 30 anatomical structures covering each body system, including major organs of the male and female body. The visual examples demystify much of the medical terminology found in most PDSs.

Why Macquarie Life Active:

‘People want a policy that covers them. It’s that simple. They’re not concerned about the different types of life insurance and definitions. They want their needs covered. Active does this.

‘It’s a more holistic approach to life insurance that is easy to explain to clients. I walk them through their needs and they see that Active takes care of all them in one policy, with one decision.’

Steve Kerbel, Financial Adviser, South City Brokers

Key Features

The key features page provides your clients with a clear value proposition explaining how the benefits of Macquarie Life Active can apply to their unique situation.

Case Studies

Animated case studies explain case terms and conditions, making it easier for your clients to understand the severity based claims process in a transparent and open manner.

Resources

Need more information?

The resources page has all the information your clients need to make an informed decision when selecting the appropriate insurance, including the PDS, brochures and reference documents.

The Macquarie Life Active interactive guide revolutionises product and claims education for you and your clients. At the end of the tour, your client will have a thorough understanding of Macquarie Life Active and the benefits of having just one product that offers greater breadth of cover.
